INSPIRE

OUR PURPOSE is to reflect the Hand of God in the quality and integrity of our work, to be His steward in our use of the Earth's resources, and to witness for Him in the fairness, honesty and humility of our daily interactions with others.

OUR VISION is to use new, efficient, green building methods and materials to provide well-designed, well-constructed accessory buildings, homes and commercial buildings that solve problems for people and improve their living conditions.

OUR MISSION is to treat everyone with respect, never bragging or exaggerating, helping buyers make the best choice for their family or business, being fair and honest in every transaction, delivering on time, and exceeding expectations whenever possible.

OUR PLEDGE TO YOU

You will never be treated unfairly or unkindly here.

TAILORED WITH PURPOSE

Styled by an Ohio based interior designer, this shed was crafted with a keen eye for detail. From the tiled flooring and painted walls to the abundance of natural light, with a space like this, you can work, play and even entertain!

WORK FROM HOME IN STYLE

We're totally in love with this Viva Violet home office.

With its bold color and finished interior, it's definitely

More than a Shed[™]. Author S.G. Savage needed room to

continue work on her books. "I wanted a place," says the

author, "with nothing but my favorite things."

The results are both show-stopping and functional,

providing office space and privacy.

HARTFORD, 10'x10'. Special touches: 7/12 roof pitch, SmartSide in Viva Violet with Soft White trim and Weathered Wood shingles. Radiant barrier roof sheathing, 72" fiberglass double entry doors and 30"x36" aluminum windows. A custom interior features wallboard, pine-paneled ceiling, electrical wiring and a vented heating/cooling unit. See more pictures online.

7 SMART REASONS TO BUY HERE

Settle for an ordinary shed? Never! No need to, whatever your budget. Our sheds look great, increase property value and give you space for storage, workshops and entertaining. Every time you use it, every time you look at it, you'll be glad you bought here.

- a. 6" fascia
- **b.** Premium clear studs, 16" on center
- c. SmartFloor strength, and you can double it!

See our full lineup at LPShed.com

Home to donkeys, ponies and chickens, this copper-touched barn is a favored after-school hangout for the family's two little girls, where they trade stuffed animals for real ones, and in the process, immerse themselves in farm life and learn the joys and responsibilities of caring for farm animals. Here, the noise of the world quiets out and life moves at your pace.

CUSTOMIZED LEXINGTON, 28'x36'. Rustic stained siding and copper on the pent roof, cupola and finial come together for true country glamour. This big, 28'x36' barn is complete with horse stalls, a workshop, and stairs to a full second floor. Resting on a concrete floor, it features comfortable overhangs shading both sides and doors hung from rails the old-fashioned way.

LOFTY ASPIRATIONS

Get maximum storage the same way farmers always have — with a gambrel roof.

That balloon-shaped roof results in more usable loft space. Farmers need it for hay and straw, and it's a good idea anytime. Ontario comes in twenty-nine sizes with lofts that get bigger as the barn does.

ONTARIO, 12'X16'. Special touches: SmartSide in Riverway with Devon Cream trim and Weathered Wood shingles. Craftsman Stall doors, 30"x36" aluminum windows, Crossbar shutters and a large cupola.

- 19 GREEN THUMBS WELCOME!
 - **21 HAPPINESS BLOOMS**
 - **22** FINDING GRACE
- **25** DRIFTWOOD IS HERE TO STAY

GREEN THUMBS WELCOME!

This shed is outfitted for an enthusiastic gardener —

part tool shed, part potting shed,

part relaxing hideout. What does the owner think?

"What a super place for work and play!"

NEWPORT, 14'x18'. Special touches: 8/12 roof pitch, Smartside in Driftwood with Devon Cream trim, Weathered Wood shingles, arched timber braces, corbels, custom coppertop cupola, 33" and 66" Craftsman Crossbuck doors, awning over double door, four 28"x29" wood windows, two 60" flower boxes, lofts and workbenches.

HAPPINESS BLOOMS

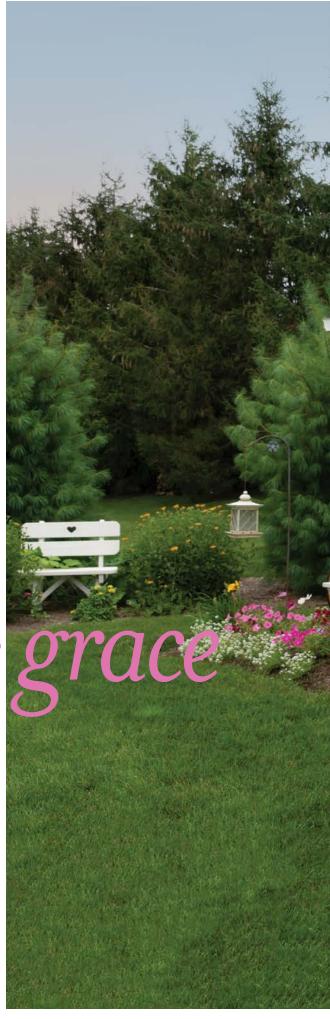

A translucent roof lights up this potting shed every day of the year, while a workbench and plant shelf invite any seed to sprout. These features, along with the ridge vent, come standard. Gardening enthusiasts will also love the optional single-hung windows, shutters, and window boxes.

BROOKSIDE, 10'x16'. Special touches: Soft White with Nature on the porch post and deck. Craftsman Braced door, 28"x29" wood windows, Crossbar shutters, flower boxes, steel roof in Galvanized. Not shown: double doors for the mower and tiller, a potting bench under the windows.

finding

The Son Flower Shack is dedicated to the memory of the owner's son. It gives her a bright place to paint pots and sell plants, the proceeds of which she uses to support families in grief. "Helping people who have lost children is why I started," she reflects, "I've heard so many different stories, and each is touched with a bit of grace."

DRIFTWOOD IS HERE TO STAY

Driftwood is the new Gray Shed craze. Driftwood is a warm greige stain with always-been-here texture. It plays well with a pop of accent paint or stain and the monochromatic magic of Weathered Wood shingles or the industrial chic of a Galvanized steel roof. It's warm, understated and here to stay.

SKYLINE, 14'x16'. Special touches: 12/12 roof pitch, SmartLap siding and trim in Driftwood, Cedar stain on door, Black shingles, 24"x24" aluminum window, 66" Cottage Braced doors, one set of two plant shelves, custom gutters.

Renowned chef Kathy Lehr uses her Skyline as a classroom for students and an outdoor entertaining center. Linens, settings and serving pieces are stored within easy reach and in the winter, tables and chairs are tucked inside. To inquire about cooking classes or buy a bread-baking video, contact Kathy at taoofdough@neo.rr.com.

SOMETHING BRILLIANT AWAITS

Sometimes a shed is just what your backyard is missing. Here's one that shows how transformational this easy upgrade can be. Got stuff to store? Nothing's more practical than a shed for de-cluttering, but whatever you put inside, a bit of bold paint makes you look nothing short of brilliant.

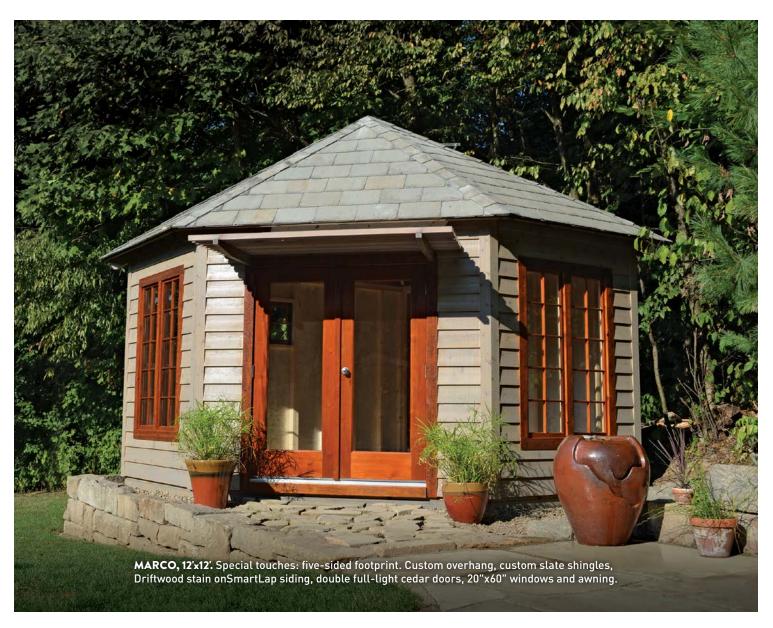

SOMERSET, 10'x14'. Special touches: SmartSide in Driftwood with Grass and Black Fox accents, Bronze steel roof, Craftsman Stall doors, 28"x29" wood windows, crossbar shutters.

Go extraordinary with a five-sided shed or a full-porch shed. Either says, "Yes!" to your backyard, whether you use it as a zen-like painting studio, line it with your top-of-the-line bow-hunting equipment or fill it with items you'd rather not list.

EXTRA-CUSTOM LEXINGTON, 20'x48'. Special touches: stone and stucco siding, roof pitch increased for a cathedral ceiling and loft for guest suites/changing rooms. On the first floor, you'll find a full-service kitchen and a game room.

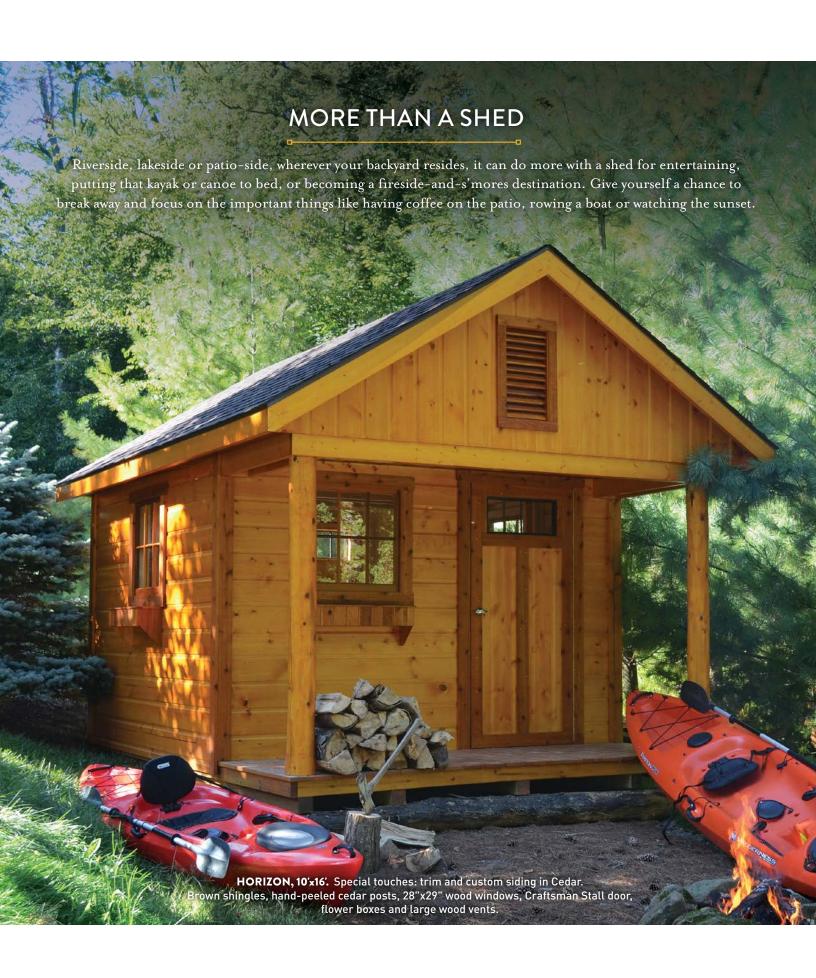

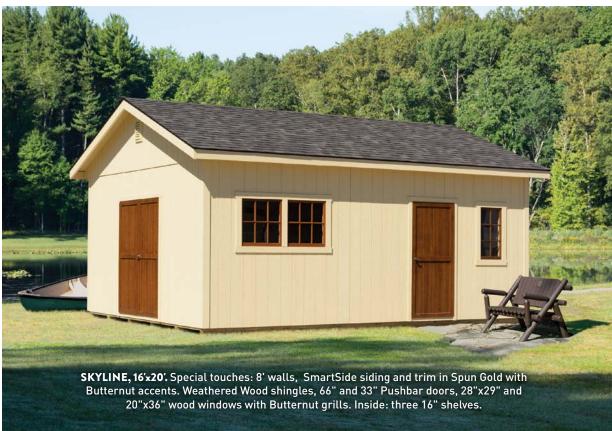

36 MORE THAN A SHED
39 A SHED FOR ANY BACKYARD
40 RUSTIC NEVER LOOKED SO GOOD

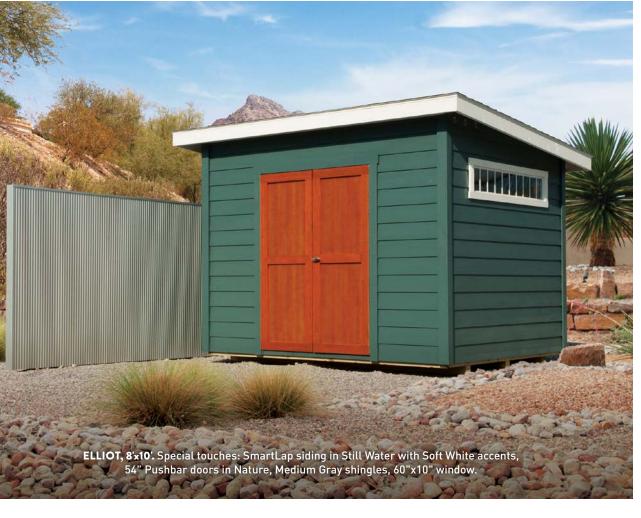

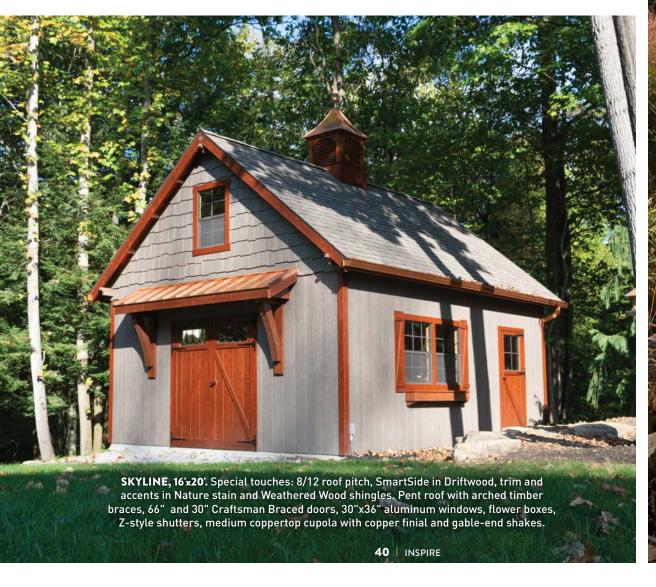

RUSTIC NEVER LOOKED SO GOOD

A gambrel roof is pure country, and a Scioto porch invites a pair of rocking chairs. Here, it's all done right with hefty 6"x6" porch posts in a woodsy stain and below the porch, joists running as they should – crosswise – to prevent settling at an angle or separation. A properly rustic structure should feel hand-crafted but meet today's design and construction standards.

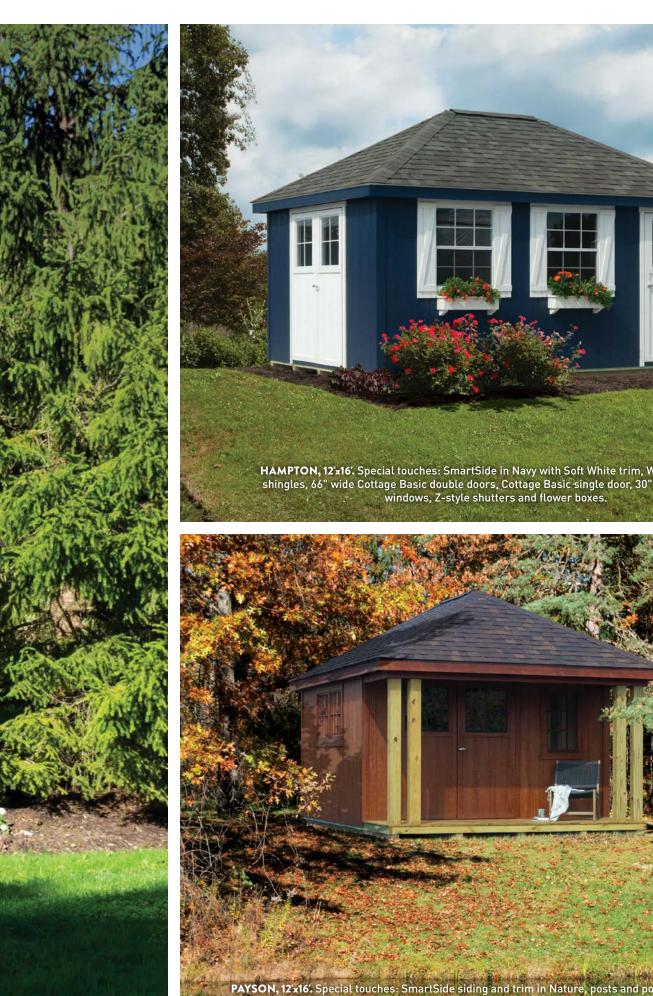

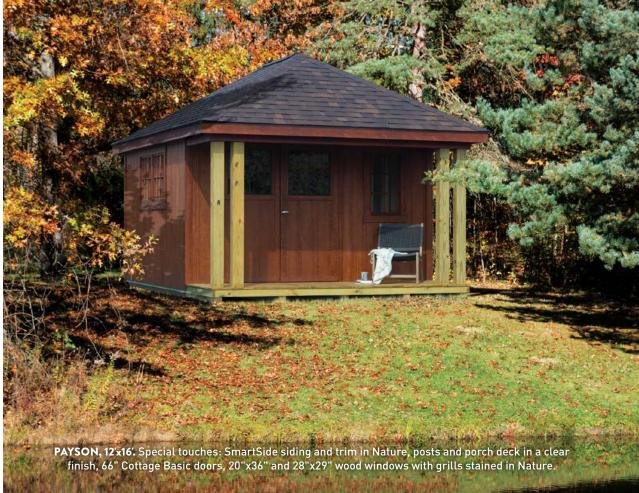

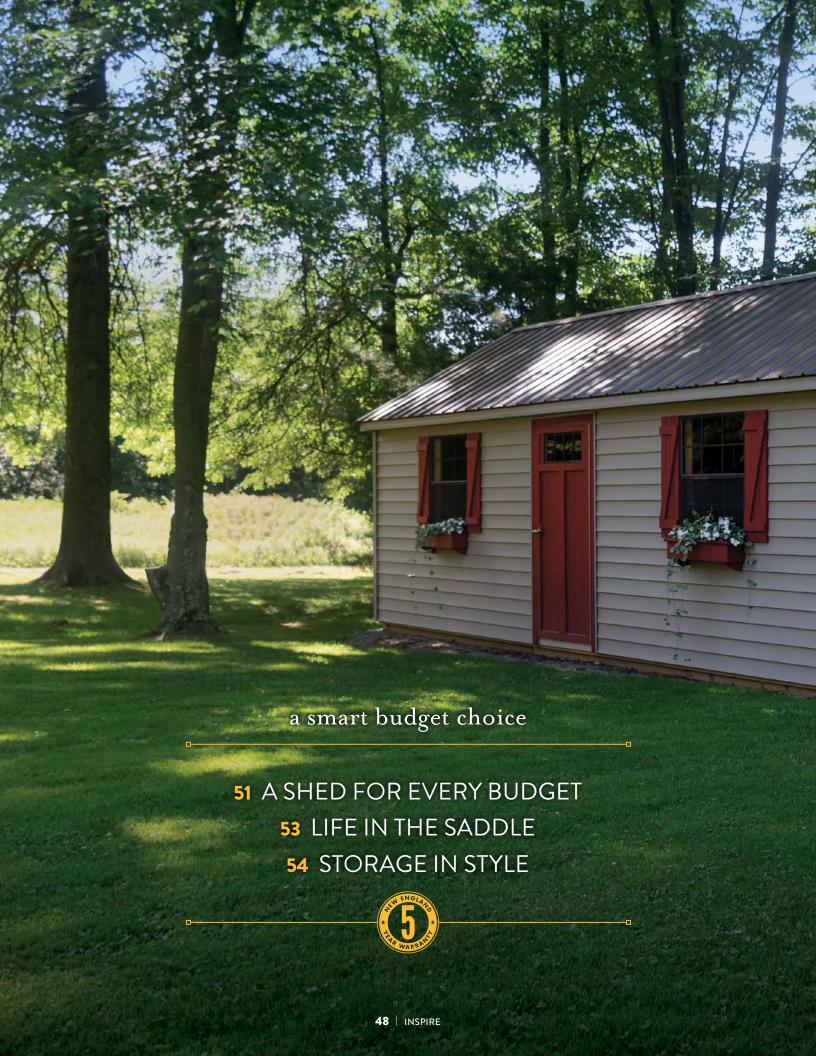

What a good idea! Take one new Lexington shed and insert a divider wall - half for garden equipment, half for the kids. Add a coat of whitewash, and tea is served in a space inspired by a movie, American Girl: Grace Stirs Up Success, bringing a little bit of Paris to the backyard. The parents say, "This divided shed fits perfectly in our yard and charms everyone who sees it."

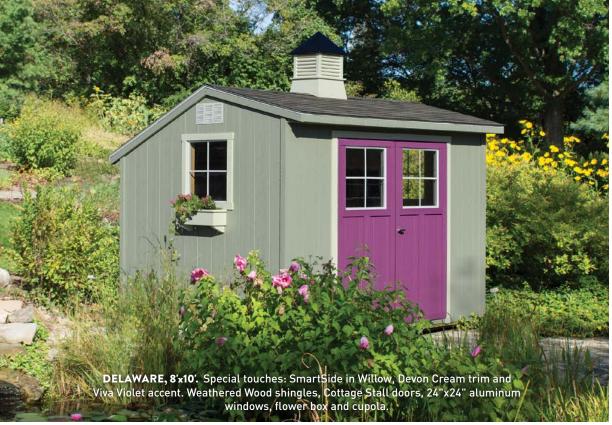

LEXINGTON, 12'x14'. Special touches: Custom ¾ height divider wall, paints and paint scheme. SmartSide, Medium Gray shingles, 33" Cottage Braced door and 54" Braced doors. decorative strap hinges, 30"x36" aluminum window with Crossbar shutters.

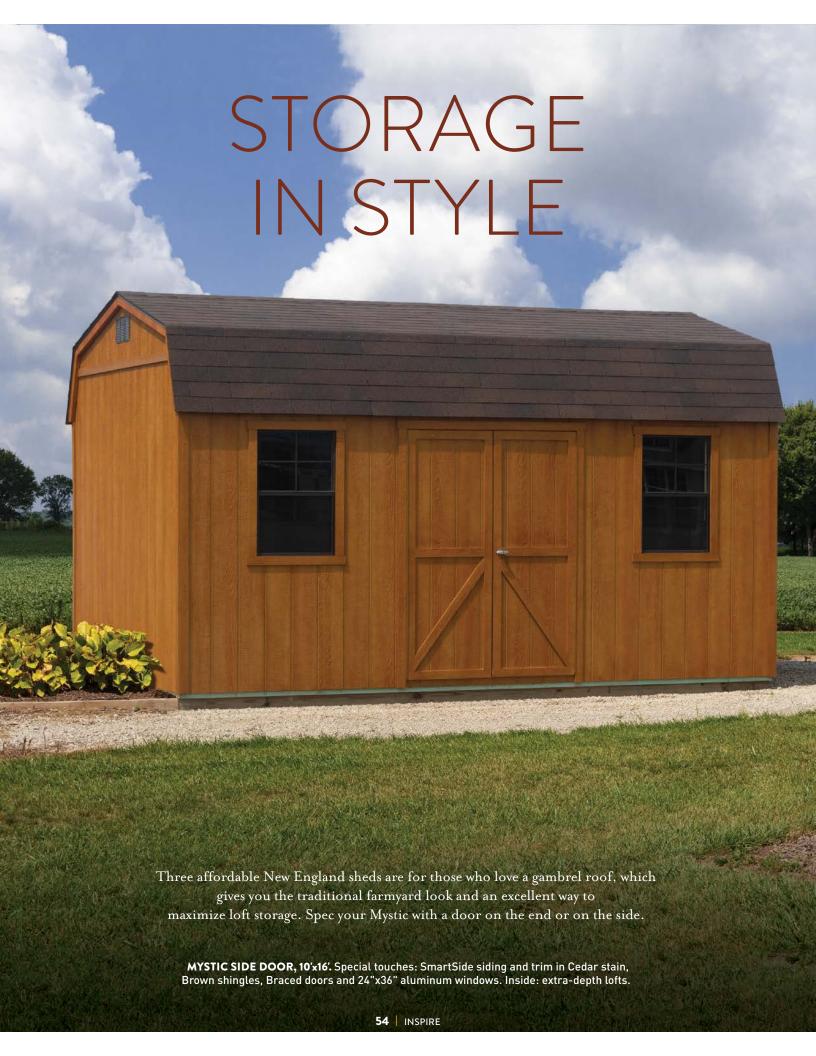

59 GARAGES SOLVE SPACE PROBLEMS61 FLEXIBILITY COMES HOME

DESIGN IT YOURSELF WITH OUR VIRTUAL GARAGE BUILDER.

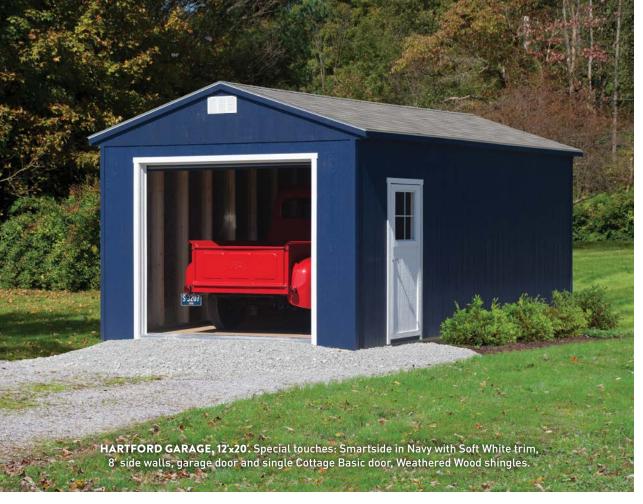

GARAGES SOLVE

Several shed models can be built as garages or you can go custom - we do both and can help you decide what's best and least costly. Three simple changes can turn a shed into a garage: [1] 8' side walls, [2] garage door (s), [3] heavyduty flooring - double SmartFloor or concrete. Your Outdoor Specialist is happy to answer questions and help you with the garage you want. Or design it yourself with our virtual Garage Builder.

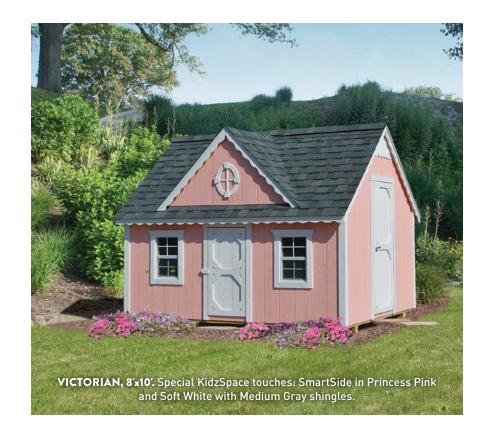

They're Only Young Once

Encourage imagination and independence with a quality-built playhouse of long-lasting wood with child-safe windows, adult doors in the back or side and child-sized lofts.

Solar. It's time. This custom, off-the-grid solar office near Lake Erie uses maintenance-free solar panels for electricity and thermal collectors for hot water heating. Payback should be achieved in ten years, if not sooner, based on electricity savings, tax credits/rebates, and increased equity value.

LIVE MORE, **WORRY LESS**

Create a cabin from Brookside, Horizon or Skyline in 10° or 12° widths with several length options, each able to be trucked to a remote location and installed with minimal fuss. Interiors are insulated and finished with SmartSide or 8" pine – a nice touch for a hunting cabin or your own place "to live more deliberately," now affordable as never before. The interior package also includes 100-amp electric, a switched ceiling light and five outlets. Options include heat and A/C, porch lights and much more.

TINY HOMES, BIG IDEAS

With their small impact on the environment and on your wallet, tiny homes are a big thing. They open the door to the simple life, where you pay less for housing and have more time to enjoy life.

Ours are modular for maximum savings and come well equipped with lighting, wallboard, flooring, insulation, cabinets, countertops and plumbing. See many examples online, order floorplans and contact us to get started.

COMPLETE BUYER'S GUIDE

MODEL | PRODUCT LINE, page number(s), roof style and other product information (side and/or end entry unless noted).

BOSTON | NEW ENGLAND, p. 55 Gambrel. 4' sidewalls, end entry only.

Back Cover

Gable, 8/12 pitch. 6'6" sidewalls. Cathedral ceiling, 4 or 5 clerestory windows, 2 lofts: 24"D in 12'L, 24"D in 14'L, 36"D in 16'L, 60"D in 20'L, 72"D in 24'L.*

SPRINGFIELD | SIGNATURE, p. 44

Saltbox, 6'6" sidewalls, side entry only.

RAISED HENRIETTA CHICKEN COOP, p. 52

Saltbox, raised 12" above ground, 6'x8'. Shown with optional screened porch. Two 14"x21" windows, 6 easy-access nesting boxes (3 with screened porch), roosting bar.

STABLES, p. 52, 53

Stable & tack room. Hartford, Mystic or Skyline. 6' divider (OSB OS), 4' kickboard, 8' opening, reinforced perimeter, no floor.

CASTLE | KIDZSPACE, p. 62

Saltbox, 4' & 6'6" sidewalls. Adult door on right. Four 14"x21" windows, loft with ladder. Optional deck comes w/fancy white railings.

CLUBHOUSE | KIDZSPACE, p. 63

Gable, 10/12 pitch, 4' sidewalls. Adult door in back. Five 14"x21" & one octagon window, loft w/ladder. 8'x4' porch. Dimensions include porch.

VICTORIAN | KIDZSPACE, pp. 62

Gable, 10/12 pitch, 4' sidewalls. Adult door on right. Two 14"x21" windows, loft with ladder. Optional deck comes w/fancy white railings.

HOW TO UPGRADE TO PERFECTION

The Standards, p. 80, list specs by series. Much is included in the base price models shown at left, and the many options and accessories let you upgrade as much or as little as you wish. Built-on-site sheds come as shown, in primer coat, with paint or stain available. Factory-built sheds come with two paints or stains for siding and trim. Additional colors available. Below are two 8'x12' Skylines, shown with and without painted corner boards and upgraded a little or very well indeed.

A LIGHT TOUCH, BUT NICE

The door is widened to 66" and its style upgraded to Cottage Stall. A 30"x36" window is at home here with Crossbar shutters.

MORE IS MORE

More windows! These are 28"x29" wood windows with flower boxes. Corbels decorate the eaves, and a cupola reigns above. Trim paint now extends to corbels, and an accent color is the coup de grace.

CATSKILL SHEDS. WORKHORSE CONSTRUCTION. NO-NONSENSE.

100% Factory-built of the tightest specs and ready for delivery. Exclusively SmartSide, overbuilt for strength and available with a primer coat only. 8 upgrades available, 3 ways to buy fast - cash or credit, rent-to-own or 12 months/no interest. Put extra storage or new work space wherever you've got a job to do.

ABOVE: HARTFORD, 12'x16'

End doors, Black shingles. Upgrade: 8' walls.

L: BOSTON, 10'x10'

Weathered Wood shingles, no upgrades.

R: HARTFORD, 10'x16'

Side doors, Weathered Wood shingles. Upgrade: 7/12 roof pitch.

L: MYSTIC, 10'x16'

Side doors, Black shingles. Upgrade: 24"x36" windows.

R: MYSTIC, 12'x24'

Upgrade: Garage door.

AVAILABLE UPGRADES

- 1. Increase 54" double door width to 66"
- 2. Replace double door with insulated garage door
- 3. Add a 33" single door
- 4. Increase wall height to 8' (Hartford)
- 5. Add 24"x36" single-hung windows
- 6. Add 2' or 4' storage loft
- 7. Aluminum Threshold
- 8. Metal Ramps

TEXTURED EXTERIOR BRIGHT INTERIOR LP SMARTSIDE

LP SMARTSIDE® **PRECISION PANELS**

SmartSide is engineered to last longer with cedar grain textured exteriors and bright SilverTech interiors.

8" Pine cove siding available.

6" LP SMARTLAP

WHAT TO LOOK FOR IN **LAP SIDING** Our SmartLap siding is better because it is designed with clear drip paths that channel

rainwater away. This prevents wicking to the inside, which can cause rot.

STANDARD PAINTS & STAINS Soft White also available.

SPUN GOLD

STAIN

PREMIUM PAINTS Using a premium paint for siding costs a little more.

SAGE

RIVERWAY

STILL WATER

WILLOW

GREEN STONE

FACTORY-BUILT SHEDS come with two paints or stains. Choose any standard paint or stain for base areas and any paint or stain for trim. Premium paints and Splashes are available on siding at a modest upcharge. Additional colors can be applied for a minimal set-up charge per color.

BUILT-ON-SITE SHEDS come with a primer coat only. They are available with factory-applied paint or stains; cost varies slightly with paint or stain chosen, and free touch-up paint or stain is included. Please expect to do touch-ups after installation.

PORCH DECKS AND POSTS on factory-built sheds come with a clear finish. Built-on-site are unfinished.

FOR HOMEOWNER APPLICATION, paint or stain is available in the can.

ON VINYL SHEDS, SmartSide doors are painted or stained at no charge.

VINYL SIDING 5" straight. White also available.

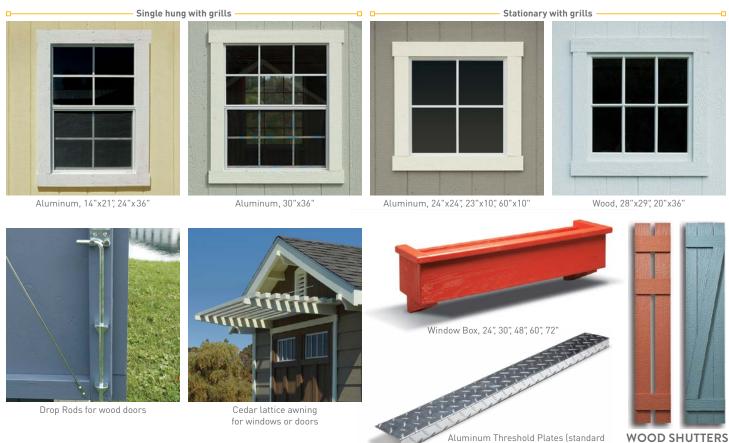

VINYL **SHUTTERS**

SHINGLES 30-year, dimensional fiberglass. Some shingle colors have limited availability. Please inquire.

WINDOWS Aluminum windows available in white or dark brown.

GOOD BONES. WHY A WOOD DOOR IS YOUR TOP SHED CHOICE.

You may wonder why we recommend a wood door for your shed over steel, fiberglass or vinyl. The answer has everything to do with winter. Homes have footers going down 3'-5', below the frost line. Sheds do not. This means sheds go through a freeze/thaw cycle every year, unnoticeable in walls, floor or roof, but affecting doors.

Our wood doors are designed to tolerate the freeze/thaw cycle in ways other materials cannot. Our doors have strong interior frames of 2"x3"s on edge. Their SmartSide and SmartTrim layers give all exposed surfaces SmartGuard protection – structural resistance to warping and chemical resistance to mold, dry rot and termites.

Wood doors take paint and stain beautifully, an advantage with any siding, including vinyl. They are excellent insulators and secure, especially with piano hinges and a keyed lock. Wood resists ordinary wear and tear and is easy to maintain, repair and refinish. The solid feel of wood is most traditional, most desirable and best for resale, which is why every other door is made to look like wood.

with garage doors)

Should your door ever stick on a cold winter's day, the best thing to do is nothing! It will likely come back into position when the temps warm up. If not, the solution is simple: shim up a back corner. This little bit of correction can work wonders to re-align a door.

WOOD DOORS 72" h in SmartSide.

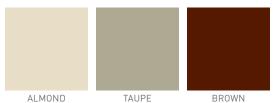

THACE BASIC ALSO AVAILABLE. SEE I ACE 43, 02, 02.

FIBERGLASS DOORS Not under warranty.

GARAGE DOORS Also available in white. Insulated. Aluminum threshold included.

If factory-built:

8'Wx7'H Regular clearance for Mystic, 10' and wider 8'Wx7'H Low clearance for Skyline and Hartford, 12' and wider 8'Wx6'4"H Low clearance for 10' Skyline, 10' and 12' Hartford

If parking a full-size vehicle on a SmartFloor, upgrade to 12" on center floor joists and/or a double SmartFloor.

Coppertop cedar cupolas 24"x24" 30"x30' 42"x42"

Cupolas, medium or large in unfinished, treated wood 17"x17' 22"x22"

WEATHERVANES For treated wood cupolas.

ROOSTER

EAGLE

SAILBOAT

COPPERTOP FINIAL

Available only on Coppertop cedar cupolas.

Reverse Gable Dormer with Wood Vent For Skyline in SmartSide or vinyl, includes wood vent. Not open to inside.

Loft, shelf, workbench Lofts and shelves are 7/16" OSB. Lofts come in 24"D sections, installed at top of wall. Shelves are 16"D, installed at 18; 34" or 54". Workbenches are 24"D 3/4" SmartFloor with backsplash and rounded front, installed 35" high, helow windows

Exterior Plant Shelves Set of two, 16" and 22", 5/4" treated shelves with arched timber braces below.

Strap hinges Decorative and functional, replaces piano hinge.

Cedar Corbels A classic decorative touch.

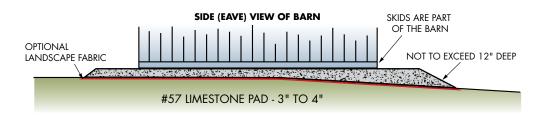

Portable Metal Ramps

Treated Ramps, 54" or 66"Wx48" deep

HOW TO PREPARE YOUR SITE

We recommend a 3"-4" deep limestone foundation pad 24" larger than shed dimensions (12" per side). Buyer is responsible for grading and foundation, building/ zoning permits and any needed caulking.

See more installation details online, and talk with your local Outdoor Specialist for site prep options.

Pent Roof with Braces In three sizes for Skylines and Ontarios, with shingles, 29-gauge exposed fastener steel, 24-gauge standing seam steel or standing seam copper.

Arched Timber Brace For the extended eaves of Newport.

Small Wood Vent Replaces metal on New England.

Large Wood Vent

Gable-End Shakes

Plank Flooring. 2"x8" treated tongue and groove. Not covered under warranty.

Hand-Peeled Round Cedar Porch Posts

Radiant Barrier

Reduces solar heat gain significantly and installs in place of regular roof sheathing.

This double SmartFloor with standard 16" OC joists on edge shows no deflection from a semi truck's weight. We don't expect you to park a semi truck on a wood floor, but you could!

JOISTS ON EDGE

Our floor joists are installed on edge, multiplying strength and stability. Treated joists and skids are standard on all models, and SmartFloor is treated with SmartGuard.

SMARTFLOOR, PROVEN STRENGTH.

SmartFloor is engineered for strength, with no natural splits along the grain. A single layer of SmartFloor in a 10'x20' shed has a huge 40,000-pound live load rating, about five times what most housing codes require. For parking a vehicle, we recommend doubling a SmartFloor.

Engineered wood stays stronger longer, resistant to moisture, termites and fungus. Weight is not the best guide to floor strength. Consider - to a termite, a heavy plank floor is just a bigger meal. The validated strength data of engineered wood is far more reliable.

CROSSWISE PORCH JOISTS

In our porch sheds, joists are run properly – crosswise under the building and out under the porch. Lengthwise allows a porch to settle or even separate. Siding goes down to the joists, so rain or melting snow is blocked from the interior.

HOW IT'S BUILT

Almost three decades of building sheds, garages, playhouses, cabins and custom homes has led us to innovative materials and methods, the use of renewable resources, and a quality of construction once only dreamt of.

RENEWABLE RESOURCES. Engineered wood - our siding, floor deck and trim - comes from small, fast-growing trees harvested from SFI-Certified forests. We plant hundreds of trees a year to ensure the future of this precious renewable resource.

PURE DESIGN. Our designs have been refined over time to complement every housing style with modern architectural sensitivity.

QUALITY MATERIALS. We begin with bright lumber - cleaner and straighter skids, studs and trusses than in many houses. Engineered wall panels have the many advantages of textured surfaces, structural integrity, and resistance to mold. mildew and insects.

PANELIZATION. Panelizing creates stronger, straighter, tighter walls. It protects raw wood from exposure to weather. Even large structures can be built with surprising speed and minimal disruption to a job site. Panelizing produces a better-quality structure with more efficiency and less waste.

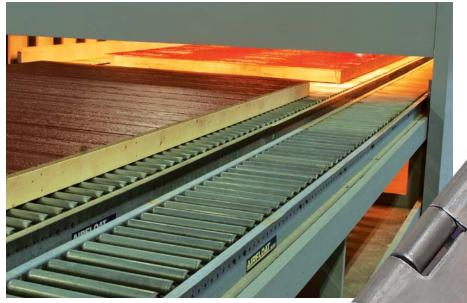

BAKED-ON FINISHES. Paints and stains cure best with seven days of hot, dry weather. Our paint oven replaces nature with a controlled exposure to heat and UV rays, replicating a hot sun and improving the adhesion of the finish.

OSB ROOF SHEATHING. OSB has higher moisture tolerance than plywood, more dimensional stability and none of plywood's soft spots. The idea that plywood is better than OSB is a myth.

Modern building technology like panelization results in structures 100% better than those built, say, thirty years ago. Don't settle for less.

Before our paint oven, the best finish took seven days of hot, dry weather. Now the process is fast, thorough and dependable. It's a big improvement, one to demand when you buy.

WHEN IS 1 STRONGER THAN 2 OR 3?

When 1 six-foot hinge replaces 2 or 3 traditional hinges. Our exclusive six-foot, no-rust aluminum piano hinge gives you serious security. Anyone who thinks he will "just take the hinges off" is in for a surprise. A long hinge helps a door swing smoothly and keep it up over time. Why think so much about a hinge? Because it's a weak point on many sheds. Not ours.

guest interview

What, exactly, is treated, engineered wood?

"For years, untreated wood was a huge problem. When modern chemistry let us treat wood, it revolutionized building. SmartGuard was a big step forward. An advanced, environmentally friendly treatment, it adds dramatically to building life and soundness."

How does LP fit in the industry?

"We pioneered treated and engineered wood and are a global leader in materials engineered for best performance in homes and accessory buildings. No one makes more products specifically for barns and sheds."

Okay, but why not just cut up a tree?

"You could, but our advanced processes use the entire log from fast-growing trees regrown in SFI Certified Forests, managed to optimize timber's splendid ability to renew itself."

What else goes into a great shed?

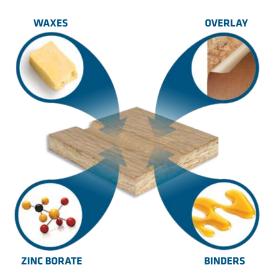

"We couldn't do it without you! The shed industry recognizes your innovative design, construction and paint application. Your customers get a great shed, barn, cabin or tiny home, and we are happy to play a part."

Rachel Hudson Segment Marketing Associate, Outdoor Building Solutions LP Corporation

SMARTGUARD & YOUR ENVIRONMENT

- 1. LP SmartSide is made from wood a renewable, natural resource.
- 2. LP relies on small, fast-growing trees that can be replenished more quickly than older, larger trees.
- 3. LP uses SFI Certified Sourcing systems to ensure that wood comes from well-managed forests.
- 4. LP uses the entire log. Wood waste is repurposed or used as fuel.
- 5. LP uses only low-emitting, safe resins without formaldehyde while making SmartSide, SmartTrim and SmartFloor.

SMARTGUARD® LP products use treated wood strand technology with advanced binders, wax and SmartGuard, a proprietary zinc borate, to resist moisture, fungal decay and termites.

SMARTSIDE has a 5-year, 100% labor and replacement warranty and a 50-year pro-rated, limited warranty on the substrate. LP SmartFloor has a 10-year limited warranty, and that is in addition to our 20-year warranty for Signature.

ONE-HOUR INSTALLATION!

You'll be amazed! JDM's small, specialized lift trucks (called "mules") and highly trained drivers make short work of deliveries and keep the process clean and fast.

Our equipment fits tight spaces, but where access is truly impossible, have your shed built on site. Watch it happen at jdmstructures.com/installation

SHED BUILDER BY JDM

JDM's new Shed Builder is an amazing 3D experience that's easy, fun and extremely useful. Not only can you design the shed you want, but every detail is instantly priced for you. The Shed Builder puts you in the driver's seat. Take it for a spin, share the results with friends, discuss your design with your local JDM Outdoor Specialist.

Get started today at JDMshedbuilder.com

3 EASY-PAY OPTIONS

Got questions? Visit jdmstructures.com/easypayoptions for a Quick Comparison chart.

120-MONTH FINANCING, LOWEST MONTHLY **PAYMENTS, FAST AND FLEXIBLE**

Work with our quality long-term lender for same day approval and the ability to use the cash for any JDM purchase. Build the shed you want at jdmshedbuilder.com and see the low monthly payments instantly.

Apply online through jdmstructures.com/ easypayoptions.

RENT-TO-OWN, NO CREDIT CHECK, USE IT NOW, OWN IT SOON

With Rent-to-Own, a factory-built shed can be installed and used while it's being paid for. Choose a three-year or four-year rental program.

Applying couldn't be easier with same day approval and no credit check!

To get started, pay only one month down and a security deposit. Much smarter than renting a commercial storage unit.

See your monthly payments instantly when you build the shed you want at jdmshedbuilder.com. Get the details here or ask your dealer.

12 MONTHS NO INTEREST, USE IT ANYWHERE

Apply online at our quality 12-Month, No-Interest lender for fast approval and the ability to use the cash anywhere. Use jdmshedbuilder.com to build the shed you want.

Apply online and look for a JDM promo code.

LOVE YOUR BACKYARD

It's your job to keep your family happy, and what's happier than dining al fresco? Make it easy with a three-season outdoor kitchen and a new deck. Somerset is More than a Shed™ with its clean good looks and clerestory windows, and you can find picnic tables and Adirondack chairs at JDM showrooms. Visit us at jdmstructures.com to see much more, experiment with our virtual shed builder and find a dealer.

SOMERSET, 12'x20'. Special touches: SmartSide in Ocean Mist and Devon Cream, Weathered Wood shingles, Cottage Basic doors in Nature, 30"x36" aluminum windows, Crossbar shutters.
